198 EAST 161ST STREET
BRONX, N.Y. 10451
(718) 590-2234

For Immediate Release
January 22, 2024

**BRONX DA DARCEL D. CLARK ANNOUNCES INTERACTIVE
DATA DASHBOARDS TO PROVIDE TRANSPARENCY ON PROSECUTIONS
BXDA Data Analysts Examined Stats from Arrest to Disposition;
Information Appears on BXDA Website, Will Be Frequently Updated**

Bronx District Attorney Darcel D. Clark today announced the launch of data dashboards on the Office’s website which will provide historical as well as current information on prosecution trends, and allow users to focus on specific charges, violent crimes, demographics and other data points.

District Attorney Clark said, “Providing accurate, timely data will help inform the Bronx community as well as policy makers about our performance and effectiveness. We believe in transparency, and this is one more step to inform the public about how we are keeping Bronxites safe, pursuing justice with integrity and improving our role as prosecutors. This high-tech resource complements our human-touch approach to community outreach.”

The interactive dashboard launched today is accompanied by data “stories” from 2018 to 2023, providing additional information on trends in prosecution and outcomes of criminal cases. Those accessing the dashboards can see how criminal cases flow through the court system, beginning with arrests by the New York City Police Department and ending with case disposition and sentencing. The data is culled from New York City Police Department arrest filings, Office of Court Administration case records, and the Bronx District Attorney’s case management system.

Access to the data reports and dashboards is found by clicking on the “Data Facts and Insights” tab on the homepage of the Bronx District Attorney’s Office website, bronxda.nyc.gov.

District Attorney Clark thanked the Strategic Planning and Analytics Unit for creating and implementing the Data Facts and Insights program: Cindy Redcross, Unit Chief; Katherine Barton, Data Visualization Analyst; and Senior Planning Analysts Mia Krause, Amanda Russell and Sean Houlihan, under the leadership of Nicole Ortsman-Dauer, Deputy Chief of Strategic Innovations Division and Kerry Chicon, Chief of the Strategic Innovations division.
